**REPORT OF SUPERINTENDENT OF SCHOOLS**

*To the Superintending School Committee and Citizens of Union:*

I have the honor of presenting for your consideration my twelfth report of the schools of Union. Schools have been taught the most efficiently the past year that they have ever been under my supervision. Miss Ripley and Miss Robbins are normal graduates. Miss Brawn has had a year at college and a summer at normal school. Miss Pendleton has had a year at normal school and a year of experience. The superior work of Mrs. Farris, Mrs. Robbins and Mrs. Heath cannot be too highly commended.

The teacher changes in the rural schools have not been as many as usual. Miss Hawes at East Union was suc-

ceeded by Miss Robbins, Miss Moody at Stone, by Miss Ripley, and Miss Scott at Hawes, by Miss Brawn.

The Stanford Achievement Tests were given in June to all pupils of the 7th and 8th grades and the results as to the standing of our pupils were gratifying and encouraging.

### TEACHERS' MEETINGS

The first teachers' meeting of the year was held at the home of the superintendent the Saturday after schools opened in the fall. The second meeting was held at Union September 22nd, when Principal William D. Hall and Miss Mary Bills, Director of Teacher Training, of Castine Normal School, spoke to the teachers of both Warren and Union. The third meeting was held at Warren October 20th. The speaker was Miss Lou Buker, Primary Supervisor, of Augusta, who talked to the teachers of both towns. The expenses of these speakers were paid by the State Department of Education.

### SPEAKING CONTESTS

The week following Education Week speaking contests were held again this year, similar to those held a year ago. Contests were first held at each school to choose speakers to compete for prizes at a contest which was held at Town Hall the evening of November 23rd, when the following pupils spoke: Dorothy Esancy, Pauline Young, Clara Rogers, and Lawrence Esancy, of the Primary school; Alfreda Young, Geraldine Gould and Ethel Davis, of East Union; Helen Mitchell and Robert Mitchell of Hawes; Dorothy Barker and Chester Butler of Nye; Frances McDonald, Alice Brock and Mae Rhodes, of Round Pond; Shirley Upham and Mary Blake of Stone; Isabel Abbott, Curtis Payson, Arlene Cummings and Laura Wallace, of Grammar; and Dorothy Morine, Barbara Payson, Thelma Watts, Lillian Anttila and Armas Anttila, of High School. As a result of this contest the following pupils were chosen to speak at the final contest: from the lower grades,

Lawrence Esancy, Pauline Young and Shirley Upham; from the upper grades, Curtis Payson, Dorothy Barker and Laura Wallace; from the High School, Dorothy Morine, Armas Anttila and Lillian Anttila.

At the final contest which was held at Town Hall the evening of November 24th, second prizes were won by Lawrence Esancy and Laura Wallace and Armas Anttila won first prize.

The unusual interest in these contests is shown by the fact that Town Hall was filled to capacity on the night when the contest was held to choose the speakers to meet the Warren speakers, and on the night of the final contest there was not standing room in the hall.

### HIGH SCHOOL

It was with regret that the resignations of Principal Danforth and Miss Johnson were received in June. Mr. Danforth had been principal for the past three years and had won the esteem and respect of the entire community. Principal Danforth resigned to accept the position of sub-master at the high school at Westbrook, and Miss Johnson to accept the position of teacher of mathematics at Presque Isle High School.

Mr. Douglas of Rumford, the present principal is a three year student of the University of Maine; and Miss Duncan of Augusta, the assistant, is a graduate of Bates College. The faithful and efficient work of these teachers needs only to be known to be appreciated.

Last year U. H. S. was the largest two-teacher school in the state. This year, at the opening of the fall term, it was the third largest such school. The average number of students for the 54 two-teacher schools of the state is 39 pupils; and the average number of students for the 33 three-teacher schools is 63 students, the number at U. H. S. at the opening of the fall term. With the two teachers as at present, the two upper classes have to recite together in Chemistry, and the two lower classes recite together in both history and general science. This makes the classes

so large that students cannot do the grade of work that they could do in a smaller group, such as would be possible, if the school had a third teacher.

The past year \$552.33 has been received from tuition students and it is estimated that nearly this amount will be received the coming year.

### REPAIRS

A cement foundation has been built for the chimney of the High School building, the toilets rocked up and drained, and new grates bought for the furnace. New heaters have been bought for the East Union and Round Pond schools. Shingles have been bought for the Shepard Hill building, and the Hawes building has been given a coat of paint.

Paper was bought for Hawes school and the schoolroom was papered by the teacher, Miss Brawn, who was assisted by two eighth grade pupils, Sybil Hawes and Thelma Hannan. Such spirit on the part of teachers and pupils is especially commendable.

The coming year the Hibbert building should be shingled. The ceiling at the Stone building should be rebattined and repaired, and the ceiling of the Hawes building should be covered with beaver board. The Hawes and East Union buildings should be given one coat of paint. A bulkhead should be built at the East Union building, because of the difficulty of getting wood into the low cellar. More of the walls and ceilings of the rooms of the High School building should be covered with beaver board.

### INTERESTING FACTS

134 pupils in grades this fall. 7 less than last fall.

63 pupils in high this fall. 8 less than last fall.

122 average attendance. 6 less than last year.

59 average high school attendance. 9 less than last year.

92 in grades not absent for any session for term. 23 more than last year.

## CONCLUSION

The finest spirit of cooperation has been shown on every hand the past year by citizens, teachers, and pupils. Such a fine spirit has made the work of the superintendent a privilege and a pleasure. I wish especially to express to the members of the Committee my appreciation of their help and for their interest in schools and every problem that has been brought to their attention.

Respectfully submitted,

FRANK D. ROWE,  
*Superintendent.*

TO THE SUPERINTENDENT, SCHOOL BOARD  
AND CITIZENS OF UNION

In order that Union High School may maintain its present standard and that students from this school may not be at a disadvantage in competing with the students of other schools either in college or in private life, I wish to take this opportunity to present one of our most urgent needs.

At present we have 58 students registered in the high school. Fifteen subjects are taught. With this number of subjects and only two teachers individual assistance is nearly impossible. A third teacher is needed. I think few of the townspeople realize how greatly this would add to the efficiency of their school.

The science class is composed of nearly the entire Junior and Senior classes. This makes far too large a group for our small laboratory and many experiments must be omitted. A third teacher would also solve this difficulty and enable us to break the class into two groups which could be accommodated in the laboratory. It would allow both the students and the teacher to do much more justice to this course. Also one or two additional subjects could be added making a more attractive curriculum.

We are fortunate in having Miss Duncan as an assistant. She is a graduate of Bates College and is doing excellent work.

The spirit and cooperation of the student body is very fine and the work being done is satisfactory.

I wish more of the townspeople could find the time to visit us and see what we are doing. They are very welcome at any time.

Respectfully submitted,

ROBERT L. DOUGLAS.

**TOWN WARRANT**
